

Ostinol Advanced

Indicated for Bone, Cartilage & Joint Pain

These breakthrough ingredients aid in cellular nutrition and growth factors for bone remodeling. The protein complex helps support the body's ability to grow new bone and cartilage tissue through stem cell activation as well as promoting a healthy immune system signaling for the ultimate bone and joint health.

All together this means Bone/Cartilage regeneration and pain relief.

Non Vegetarian Certified Organic Protein Complex.

Suggested Use

Take 1 capsule daily or as directed by your healthcare practitioner.

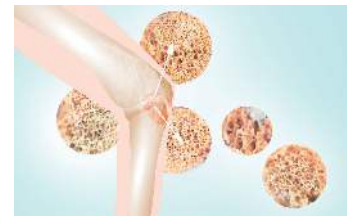

Other Ingredients

Gelatin Capsule and Microcrystalline Cellulose.

This Formula Includes:

Cyplexinol (Bone Morphogenetic Protein [BMP] Complex)

Cyplexinol is a natural BMP complex, which consists of a collagen fragment matrix with the BMPs and endogenous growth factors bound within and to the matrix. Provides anti-inflammatory properties and promotes the growth of bone tissue and cartilage tissue growth. Certified and scientifically tested and proven.

Boswellia (Frankincense)

Boswellia is known to have anti-inflammatory and anti-cancer properties. It also is clinically proven to help decrease pain and is associated with arthritis and helps in joint healing.
