GUIDED REGIMENS

Immune Support

Vitamin C

Promotes healing & collagen synthesis while boosting your immune system. Decreases inflammation & aids in treating conditions ranging from a common cold to cancer.

Poly-PlusMVA

Increases energy, reduces fatigue & enhances overall health. Provides additional boost for those with autoimmune diseases & in chemotherapy, or radiation treatments. A series of infusions is recommended for best results.

Myers' +

Provides multiple vitamins, trace minerals & amino acids. Great for cellular rejuvenation & overall boost in energy.

MAH (Major Auto-Hemotherapy)

Help the body's natural immune system heal itself. Superior treatment to help decrease inflammation, viral & bacterial loads. A series of infusions is recommended for best results.

Immune Pro

Concentrated blend of immune supporting vitamins and minerals. This is a great way to 'dive deep' with healing your immune system.

Detoxification

Glutathione

Rich, powerful antioxidant that provides liver support & improves skin tone and texture. Can provide a boost for overall health and wellness.

Chelation

*Lift the burden of heavy metal toxicity in your body. Helps relieve symptoms associated with elevated cholesterol levels. Infusion includes EDTA and B vitamins.
Remineralization IV after Chelation is recommended.

Aesthetics

PTC (Phosphatidylcholine)

Anti-aging factors to help improve cell integrity & the transport of nutrients while exporting toxins across the cell membrane. A series of infusions is recommended for best results.

Glow

A comprehensive blend of vitamins and minerals which supports collagen regeneration to help with skin elasticity. Helps give a natural glow.

Hydration

Provides multiple health benefits to all systems in the body. Improves overall health & wellbeing.

Mental Health

Procaine

Reset for the central nervous system. Relief of symptoms associated with anxiety, depression & pain.

Other

Healing Tissue (Pre/Post Surgical)

Aids in tissue preparation prior to surgery & promotes healing after surgery. Essential minerals including taurine & procaine provide pain relief & reduce inflammation.

Magnesium

Magnesium is an essential mineral necessary for many healthy functions of the body. From relaxing and calming muscles and nerves to supporting healthy immune system function, IV magnesium is a great option. Magnesium can also help regulate metabolism and assist in maintaining blood sugar levels.
