

Infection Defense

Indicated for Immune Health

These 90% pure Monolaurin pellets promote powerful and effective benefits for your immune system. Distilled from coconut oil, our unique Monolaurin is produced with recently developed technology yielding a highly pure, extremely effective, and economical product.

Our easy swallow beads contain a minimum of 90% Monolaurin along with Monomyristin, Monocaprin, and Monocaprylin which also have antimicrobial properties. Because it is not encapsulated, it contains no fillers.

Suggested Use

Take 1 scoop (750 mg. or approximately 1/4 tsp) 3-4 times per day. Swallow beads with your beverage of choice. Do not chew beads. Do not take with hot liquids.

Maintenance: Take 1 scoop 1-2 times daily.

Quantity: 7.4 oz.

This Formula Consists Of:

Monolaurin

Works directly on the lipid envelope coat of the virus, preventing attachment to susceptible host cells. It is non-toxic to humans. It helps slow viral invasion into the body and has been reported to have activity against many viruses, bacteria, protozoa, and fungi such as candida.

It does not interfere or have any known reactions with drugs. Clinical tests show that Monolaurin and Monocaprin together are more effective, killing 100% of pathogenic bacteria without destroying friendly bacteria.

The ingredients in this product are supplied by the well-respected USA and/or European vendors, and they are HPLA analyzed for purity and quality. These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure, or prevent any disease.
