

Healing Probiotic

Indicated for Digestive Health

Amino acids have many functions in the body. They are the building blocks for all body proteins- structural proteins that build muscle, connective tissues, bones, and functional proteins. Amino acids provide the body with the nitrogen that is essential for growth and maintenance of all tissues and structures.

Suggested Use

Take 1 capsule between meals 1-2 times daily or as directed by a qualified health professional. To maintain potency, store at room temperature or below.

Quantity: 100 Capsules.

Other Ingredients

Bacillus Subtilis, Bacillus Clausii (5 billion CFU), Fructooligosaccharides & Chicory Root.

This Formula Includes:

Bacillus coagulans

Bacillus subtilis, and Bacillus clausii: These three probiotics are known to maintain or help restore the natural balance of intestinal microflora.

This creates a favorable environment for the growth of "good microflora" in the large intestine, which helps support its integral functions, namely the absorption of water and minerals and the passage of the remaining waste products.

Bacilli probiotic species are favorable because they exhibit the characteristics of both the Bacillus and Lactobacillus genera while being resistant to high temperatures. This product contains the optimal dose of 5 billion cfu/dose. Bacillus clausii demonstrates antibiotic-resistant properties suggesting that it can be a key probiotic in supporting gut flora during and after antibiotic therapy.

The ingredients in this product are supplied by the well-respected USA and/or European vendors, and they are HPLA analyzed for purity and quality. These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure, or prevent any disease.
