

Healing Turmeric

Indicated for Inflammation

Curcumin C3 Complex® and BioPerine® are the registered trademarks of Sabinsa Corporation covered under U.S. Patent. Studies have shown that BioPerine® dramatically enhances the bioavailability of curcumin and other nutrients which enhances the antioxidant, hepatoprotective, anti-cancer, anti-inflammatory, thrombolytic, gastroprotective, and neuroprotective properties of turmeric.

Suggested Use

Take 1-2 capsules morning and evening, or as directed by a qualified health professional.

Quantity: 120 Capsules.

Other Ingredients

Black Pepper Extract, Magnesium (Amino Acid Chelate) & Gelatin Capsule.

This Formula Includes:

Turmeric

Turmeric, which contains the bioactive compound Curcumin, used in conjunction with black pepper, has a synergistic effect on the health of the heart, liver, brain, GI tract, bones, and joints. Curcumin has a total body effect because it works to reduce the damage caused by our body's stress response.

It has been shown to act on the inflammatory processes by blocking the activation of certain compounds that are responsible for signaling and creating inflammatory responders. This inhibition of the body's stress response, especially for chronic stress, can have many positive effects. improved brain functioning and cognition, decreased signs of aging in the skin and eyes, reduced pain in joints, stimulated digestion and reduced bowel pain, lowered blood pressure, and improved metabolic function have all been noted.
