

Vitamin C

(Beadlets & Capsules)

Indicated for Immune Health

Vitamin C-500 is a time-released ascorbic acid with rutin, which works synergistically with vitamin C, and is designed to maximize bowel tolerance. Because the body can only absorb about 200 mg of vitamin C at once, the time-release feature means that less is wasted and more is absorbed and metabolized over time.

Suggested Use (Capsules)

Take 1 capsule after each meal, or as directed by a qualified health professional.

Quantity: 100 Capsules.

Suggested Use (Beadlets)

10 g = 2 tsp, diluted in beverage of choice, per day or as directed by your qualified healthcare provider.

Quantity: 300 Grams.

Other Ingredients

Capsule: 500 mg Vitamin C, Rutin, Nonpareil Seeds, Microcrystalline Cellulose, Food Glaze & Gelatin Capsule.

Beadlet Powder: Hydroxyethylcellulose.

Vitamin C

- Promotes tissue healing and integrity
- Enhances immune function
 - Has an antihistamine effect
 - Has an antiviral and antibacterial effect
- Plays an active role in the production of neurotransmitters
- Involved in lipid and cholesterol metabolism
- A component of major drug metabolizing enzyme systems
- Extremely important in wound healing and immune function

- **Vitamin C** is a very powerful antioxidant, especially in lipid and vitamin metabolism.
- **Rutin** is a bioflavonoid with an antioxidant action.
- **Bioflavonoids** including buckwheat-derived rutin, have been used in easy bruising and capillary fragility.
