

Vitamin D Injection

Indicated for Daily Support

- Have a **baseline Vitamin D blood level** drawn, along with calcium.
- **Start ADK10 daily.**
- Come in for a **follow-up blood level** at least 8- 12 weeks after taking your Vitamin D. This test is already in your computer chart and all you have to do is come in when we are open, no appointment is necessary.
- Continue taking your **Vitamin D all year long.** We will contact you regarding your results and if the frequency of dosing needs to be adjusted based on your first level and the follow-up level, then we will let you know what may be best for you.
- Have your **levels checked once a year** on your annual exam.

Vitamin D

Injection: 100,000
