

ACUTONICS

The Acutonics® Healing System is a gentle, non-invasive, deeply relaxing and healing treatment that is similar to acupuncture, but without needles. Specially calibrated tuning forks are applied to specific acupuncture points throughout the body. Their vibration and rich resonance support the body's natural frequencies and help bring you into balance and wellness. It is a powerful treatment that can be both invigorating and relaxing.

These sound waves travel deeply into the body along energy pathways (meridians). Applying the forks stimulates the body's physical and subtle energy field to promote healing and wellness. The treatment focus can be on physical, emotional, and/or spiritual concerns.

What can Acutonics address?

- Headaches
- Neurological concerns such as ADHD, depression and anxiety
- digestive concerns
- life transitions
- menopause
- hormone imbalances
- back pain
- insomnia
- sinus problems
- thyroid disease
- infertility
- menstrual pain
- anemia
- fatigue
- and many more conditions

Treatments are 30-40 minutes long and usually at least 3-5 treatments are recommended for best therapeutic effect.
