

Healing Probiotic

Indicated for Digestive Health

This advanced, robust probiotic blend of 5 Billion Potency and 3 Shelf-Stable Bacillus Strains, was formulated to survive the journey from stomach to the large intestine and support overall GI health. The benefits of this combination of probiotics include maintenance of intestinal homeostasis, competitive exclusion of pathogens, production of antimicrobial compounds, promotion of the intestinal barrier function, immune modulation, and some very promising results in the area of inflammatory bowel disease.

Suggested Use

Take 1 capsule between meals 1-2 times daily or as directed by a qualified health professional. To maintain potency, store at room temperature or below.

Ingredients

Each capsule contains *Bacillus coagulans*, *Bacillus subtilis*, *Bacillus clausii* (5 billion CFU guaranteed potency per capsule), fructooligosaccharides, and inulin from chicory root.

This supplement provides:

Bacillus coagulans, *Bacillus subtilis*, and *Bacillus clausii*: These three probiotics are known to maintain or help restore the natural balance of intestinal microflora.

This creates a favorable environment for the growth of "good microflora" in the large intestine, which helps support its integral functions, namely the absorption of water and minerals and the passage of the remaining waste products.

Bacilli probiotic species are favorable because they exhibit the characteristics of both the *Bacillus* and *Lactobacillus* genera while being resistant to high temperatures. This product contains the optimal dose of 5 billion cfu/dose. *Bacillus clausii* demonstrates antibiotic-resistant properties suggesting that it can be a key probiotic in supporting gut flora during and after antibiotic therapy.

The ingredients in this product are supplied by the well-respected USA and/or European vendors, and they are HPLA analyzed for purity and quality. These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure, or prevent any disease.
